DETAILED CHECK RESULTS

✓ PASS	**HTTPS / TLS**	TLS 1.3 active, valid certificate (Let's Encrypt), expires Mar 12, 2026.
■ WARN	**HSTS header**	HTTPS works but Strict-Transport-Security header is missing.
✓ PASS	**Cookie consent**	Consent banner detected (Shopify default consent platform).
✓ PASS	**Forms and privacy link**	All forms reference the privacy policy (GDPR Art. 13).
✓ PASS	**Privacy policy**	Linked from homepage footer; reachable in under one click.
■ WARN	**Security headers**	Content-Security-Policy missing; X-Frame-Options not set (NIS2 Art. 21 baseline).
✓ PASS	**Accessibility statement**	EAA accessibility statement found at /accessibility.

RECOMMENDED FIXES

• Add **Strict-Transport-Security: max-age=31536000; includeSubDomains** as a response header. One line in your edge/server config; supports GDPR Art. 32 security-of-processing.

• Add **Content-Security-Policy** (report-only first) and **X-Frame-Options: DENY**. Closes the two most common OWASP baseline findings auditors check.
